## TO NOTE

### 2<sup>nd</sup> international symposium „Obesity Mechanisms“

Our 2nd international symposium „Obesity mechanisms“ will be held in Leipzig on September 2-3, 2019. The conference takes place at the Mediocampus Villa Ida (Poetenweg 28, 04155 Leipzig).

The symposium will focus on five main topics including the invited speakers:

- 1.) Central obesity mechanisms: Sebastian Schmidt (Lübeck)  
Martin Wabitsch (Ulm)
- 2.) Brain periphery crosstalk: Jens Brüning (Köln)
- 3.) Adipose tissue heterogeneity: Yu Hua Tseng (Boston)  
Tim Schulz (Potsdam)  
Martin Klingenspor (München)
- 4.) Adipokines: Siegfried Ussar (München)
- 5.) Consequences of obesity: Hans-Peter Hammes (Heidelberg)  
Annette Schürmann (Potsdam)

Cultural evening part/ get-together supported by Blondie & The Brains

The CRC symposium will be followed by the closing conference of the Integrated Research and Treatment Center (IFB) Adiposity Diseases (September 3–4, 2019).

## DON'T FORGET

### Feed the CRC 1052 website

**TO  
DO  
LIST**

- do you have a suggestion (topic/lecturer) for our CRC colloquium ?
- new publication ?
- do you have a guest in your CRC project ?
- Are you planning an international stay concerning the CRC 1052?
- anyone received a scientific award (e. g. poster prize)?
- new members/leaving members (e. g. finished doctoral students)?
- public output/media presence ( e.g. interview )?

Since your feedback is always welcome, please do not hesitate to contact the scientific coordinator: [Lysann.penkalla@medizin.uni-leipzig.de](mailto:Lysann.penkalla@medizin.uni-leipzig.de)
